

Churchwardens' Report on the Fabric prepared for the Annual Meeting in April 2022

Residential properties.

Minor repairs took place as needed at 68 Henley Avenue and Emmanuel Church House.

St Andrew's Cheadle Hulme

Fluorescent lights in the church halls were replaced with LED fittings and lights.

Emmanuel Church

The whole of the inside of the church building was redecorated. The old bookcase in the foyer was replaced by two low cupboards.

Some window panels were replaced due to clouding of the units.

We continued to insure the property of the church, and ensured the buildings and grounds were safe. During 2022 quinquennial inspections will be taking place at both churches.
